

End Stanchion (Rise) w/ Rail Mount Fixing Plate - 11-30deg - Gal/Yellow

ERK-RM-EP-2-G

Description

Enforcer Rails End Stanchion with Rail Mount Fixing Plate 11-30deg, combined with the rise stanchion, is designed to be a versatile and effective barrier solution for tough industrial and workplace environments. Constructed from high-quality galvanised steel for strength and durability, it is designed to meet rigorous industrial safety standards and offer reliable support to safety structures. The precision engineered stanchion offers a rail mount fixing plate that adjusts from 11-30deg for diverse railing projects and suits industrial, warehouse and workplace applications.

It can be used to create industrial safety barriers, warehouse safety zones and traffic control for vehicle and pedestrian passageways and to create dividing structures for segmenting workspaces. Our stanchion is designed to perform indoors and outdoors without compromising on strength and performance. The durable galvanised steel construction resists weather related damage and corrosion

Features

- Constructed from high-quality galvanised steel for strength and durability.
- It is designed to meet rigorous industrial safety standards and offer reliable support to safety structures.
- The precision engineered stanchion offers a rail mount fixing plate that adjusts from 11-30deg for diverse railing projects and suits industrial.
