

## End Stanchion (Fall) w/ Rail Mount Fixing Plate - 23-30deg - Gal/ Yellow

ERK-RM-EP-3F-G

### Description

Enforcer Rails End Stanchion with Rail Mount Fixing Plate 23-30deg is built from galvanised steel for strength and durability and is designed to meet rigorous safety standards in industrial workplaces. The precision engineered stanchion offers a rail mount fixing plate that adjusts from 23-30deg for diverse railing projects and suits industrial, warehouse and workplace applications. It can be used to create industrial safety barriers, warehouse safety zones and traffic control for vehicle and pedestrian passageways and to prevent workplace accidents as fall prevention or barriers against hazards in tough environments.

Our stanchion is designed to perform indoors and outdoors without compromising on strength and performance. The durable galvanised steel construction resists weather related damage and corrosion. It can be used for various projects in industrial, commercial and residential settings to enhance the safety and aesthetic of your environment.
