

End Stanchion (Fall) w/ Rail Mount Fixing Plate - 31-44deg - Gal/ yellow

ERK-RM-EP-5F-G

Description

Enforcer Rails End Stanchion with Rail Mount Fixing Plate 31-44deg is built from durable galvanised steel and provides stability and unrivalled fall protection. It comes preassembled for fast and hassle-free DIY installation, ensuring you can efficiently safeguard your workplace against accidents. The included rail mount fixing plate at 31-44deg make it ideal for fall protection applications. It can be used in tough environments like construction sites, industrial sites and for roof maintenance to create a strong support system ensuring a safe work environment.

Our stanchion is designed to perform indoors and outdoors on site without compromising strength and performance. The durable galvanised steel construction resists weather related damage and corrosion. It can be used for various safety applications in industrial, commercial and residential settings and is ideal for creating stable fall protection systems.
