

End Stanchion (Fall) w/ Rail Mount Fixing Plate - 0-11deg - Gal/ Yellow

ERK-RM-EP1-G

Description

Enforcer Rails End Stanchion with Rail Mount Fixing Plate is crafted from robust and reliable galvanised steel and offers a strong solution for your indoor or outdoor safety fencing needs. It comes preassembled and ready for action, making installation a breeze. It can be used to secure your outdoor deck railing in style, to guide foot traffic for public pedestrian ways and to create secure barriers for crowd management at busy events. The fixing plate allows for the creation of angled systems while the preassembled design enables you to quickly deploy your safety railing to maximise the safety of your environment.

The galvanised steel construction ensures our end stanchion can perform indoors and outdoors in any weather without compromising the structural integrity or professional aesthetic of the product. It can be used for various safety applications in industrial, commercial and residential settings and is ideal for creating stable fencing systems.
