

Corner Stanchion w/ Base Fixing Plate - Galvanised/Yellow

ERK-SM-CP

Description

Enforcer Rails Corner Stanchion with 900 Corner Fixed and Rail Mount is a strong and versatile fencing solution. Constructed from galvanised steel it can be used by businesses needing to secure perimeters, create clear pathways or segment areas. The strong steel construction and robust 900 corners with rail mount adds further flexibility to the robust and professional fencing solution.

Features

- Preassembled design allows quick and efficient installation on-site.
- Durable hot-dip galvanised steel construction performs reliably indoors and outdoors.
- Versatile solution suitable for multiple safety applications in industrial and warehouse environments.
