

End stanchion (Rise) w/ Straight Angle Base Fixing Plate 0-11deg fittings - Gal/Yellow

ERK-SM-EP1-G

Description

Enforcer Rails End Stanchion (Rise) with Straight Angle Base Fixing Plate 0-11deg fittings range is constructed from durable galvanised steel. The adjustable angles provide flexibility and support for a variety of applications. The stanchion comes preassembled to streamline your installation process, ensuring fast deployment when needed. It can be used in tough commercial and industrial settings and can be relied on in construction sites and industrial facilities to create reliable barriers around hazardous areas as well as outdoor event infrastructure such as stages or seating. The adjustable angles can enhance stability over difficult terrain conditions.

The robust galvanised steel construction ensures strength and performance in all weather conditions making our end stanchion a strong solution for your business or facility.

Features

- The adjustable angles can enhance stability over difficult terrain conditions.
- It has been designed to withstand Australian weather without compromising quality over time.
- Making it suited for indoor or outdoor use.
