

End Stanchion (Rise) w/ Straight Angle Base Fixing Plate 31-44deg Fittings - Galvanised/Yellow

ERK-SM-EP5-G

Description

Enforcer Rails End Stanchion (Rise) with Straight Angle Base Fixing Plate featuring a versatile 31-44deg angle adjustment is a versatile safety tool that fits various barrier applications. Constructed from strong galvanised steel and with the convenience of being preassembled, it offers reliability for your structural projects. Perfect for creating structural support at construction sites, fencing solutions for residential boundaries and crowd management at busy events, our end stanchion excels in tough environments.

Purpose built to deliver reliability in the outdoors, the robust galvanised steel construction ensures your end stanchion performs in any weather. It resists corrosion and damage caused by harsh Australian weather conditions. The end stanchion with adjustable angles can be quickly deployed to ensure workplace safety.
