

Expandable Safety Barrier Steel - 3000mm Yellow/Black With Wheels

ESB-3000-SW-Y

Description

Enforcer Expandable Safety Barrier Steel 3000mm Yellow/Black with Wheels can be used in a variety of industries to protect buildings, people and assets. This transport friendly, versatile barrier can direct vehicle flow and pedestrian ways around hazards, protect worksites and work as a multifunctional barricade to cordon off restricted areas.

Made from strong steel in a safety yellow and black colourway for added visibility, it expands to 3 metres at full length. The barrier is mounted on 4 strong wheels that are lockable, ensuring safety when in transport and storage.

Features

- Manufactured from steel.
- Expandable up to 3 meters with lockable wheels.
- Powder coated safety yellow and black finish.
- Lightweight and easy to relocate.

Specifications
