

Loose Stones Sign 900x600mm, (Corflute)

ET3-9AH

Description

Enforcers Loose Stones Sign 900x600mm, (Corflute) is constructed from a corrugated polypropylene that is durable and well-suited to tough environments like building, construction and road work sites.

The loose stones sign is a substantial 900mm x 600mm and designed in high contrast safety colours to ensure awareness of loose stones. It effectively communicates the hazardous ground condition to oncoming pedestrians and motorists, ensuring they can take the appropriate care by slowing down and avoiding costly damage.

Features

- Made from tough and durable Corflute.
- High visible yellow and black design.
- The sign will perform and last in Australian weather conditions.
