- Suitable for both indoor and outdoor use

Enforcer Drop Over Fire Hose Ramp is environmentally friendly and manufactured from new and recycled rubber. This Hose Ramp protector is used for protecting large hoses and electric conduits or cables. It is an effective, durable, and long-lasting product, the hi-vis reflective strips make them stand out in any environment.

This cable protection system can be used individually or interlocked together to provide temporary or permanent cable safety for the required length. And eliminate the risk of trips and falls from loose cabling. This cable protector is also used to provide temporary ramps into driveways during construction along the curbs. They are lightweight and flexible.

They are easily transported with fast installation. Suitable for both indoor and outdoor use, for construction sites, mines, work sites, warehouses, garages, exhibitions, etc.

Strong & Durable
