

Heavy Duty Drop Over Cable & Fire Hose Ramp - 2 Channel

FHR-2C

Description

The Heavy Duty Drop Over Fire Hose Ramp 2 Channel is built from environmentally friendly but extremely tough and durable new and recyclable rubber. The rubber material is abrasion free and long-lasting. The hose ramp secures and protects large hoses, like fire hoses and other types of electrical cables and wires. It is especially a life saver during emergency and fire calls as it ensures wires, cables or hoses are free from damage caused by heavy duty vehicles as well as high pedestrian traffic.

It prevents bulges as well as pinches in hoses and cables, ensuring continuous and unobstructed flow of water, electricity, or signals from a source point.

Features

- Suitable for medium to heavy-duty vehicles.
- 2x large channels for hoses and electric conduits.
- Interlocks to each other to provide the required length.
- Feature yellow high visibility strips.

Specifications

SKU	FHR-2C
Length	850 mm
Width	300 mm
Height	125 mm
Weight	19 kg
Colour	Black
Material	Recycled Rubber
Finish	Black with high-visibility yellow reflectors
Channel Size	100mm x 90mm
Additional Specs	Interlocking modules, no fixings required
Warranty	1 year
