

Flush Head Sleeve Anchor (1 x 16mm x 150mm)

FX-DB-16x150

Description

Enforcer Sleeve Anchor Bolt is a solid and reliable anchoring solution for use in concrete, stone and brick. The flat flush head ensures work is professionally finished. This model is 16mm x 150mm to suit a variety of building needs.

Features

- Suitable for medium to heavy-duty anchoring applications.
- Expands inside the substrate for strong, vibration-resistant hold.
- Hex nut head for easy tightening with standard tools.
- Corrosion-resistant finish for extended durability in various environments.
- Ideal for fixing bollards, steel structures, timber, and other fixtures.
