

Sleeve Anchor Bolts Stainless Steel (1 x 12mm x 100mm)

FX-DB-SS-12x100

Description

The Enforcer Sleeve Anchor Bolts Stainless Steel (1 x 12mm x 100mm) is one of the most widely used masonry and concrete fasteners available. They are a medium duty fastener that have the ability to fix medium to heavy loads. The four distinct components that make up the sleeve anchor are the breakup sleeve, a threaded stud bolt or body, a nut, and a washer. The sleeve anchor is featured with a hex nut head.

By expanding, the sleeve anchors embed themselves into masonry substrates like concrete, hollow or solid block, hollow or solid slabs, or other materials. They are used to anchor various types of construction fixtures like steel or timber.

Features

- Stainless steel construction for durability and corrosion resistance.
- Medium-duty fastener suitable for medium to heavy loads.
- Expansion design provides secure fixing into masonry and concrete.
- Includes sleeve, threaded stud bolt, nut, and washer.
- Hex nut head for straightforward installation.
