

Rubber Road Parking Lane Dividers

LD-Y

Description

The Rubber Road & Parking Lane Dividers are from Enforcer Group, based in Melbourne Australia. They are a game-changing solution. They improve road safety and traffic control in diverse Australian landscapes. The dividers are 1000mm long, 150mm wide, and 50mm tall. They are ideal for construction companies, businesses, and more.

The dividers are made from durable yellow rubber with white reflective tape and glass reflective beads. They ensure great visibility day and night. This makes them vital for maintaining clear lane separation and preventing accidents. They are rugged. This guarantees they last a long time and resist Australian weather. This ensures they work well for a long time.

Features

- Recycled rubber with a high visibility yellow finish and three reflective panels on each side.
- Parking Safety.
- Multiple mounting options.
- Light weight easy to install by one person.
- Strong and durable for indoor and outdoor use.
