

Plastic Fence Portable Barrier - 2000mm Orange

PFB-2000-O

Description

Enforcer Plastic Fence Portable Barrier 2000mm Orange creates safe boundaries to protect people and property. This transport friendly, interlocking barrier can be used on a range of sites as an entrance barrier, to secure property or to direct traffic away from hazards.

Constructed from high-density polyethylene, it is strong enough for use indoors and outdoors and offers light wind resistance despite being compact. The safety orange colour and the red and white strip enhance visibility in low light conditions. It can be used as blockade, fence or to mark a safe boundary.

Features

- Made of hard-wearing, high-density polyethylene (HDPE).
- Easy to assemble and dissemble.
- Can be used indoors and outdoors.
