

Racking Guard - U Shape

RG-US

Description

Enforcer Racking Guard U Shape provides a tough physical barrier to protect your racks from impacts and scrapes from warehouse machinery. The design offers protection from three sides. The racking guard absorbs and deflects impacts which protects your racks and products. Perfect for warehouses, loading docks and factories where forklifts and trolleys operate.

Crafted from steel, our racking guard protectors absorb impacts and scrapes from machinery which avoids costly damage to racks, assets and vehicles. Made in a bright safety yellow powder coated colour, the protectors enhance visibility and awareness of the racks.

Features

- Powder coated yellow finish provides excellent visibility.
- Protects against impacts from 3 sides.
- Lightweight enough for one person to install.
- Made in a bright safety yellow powder coated colour.
