

Racking Guard Protector - Fits 100mm

RGP-100

Description

Enforcer Racking Guard Protector Fits 100mm provides a barrier to protect your racks from impacts from trolleys and forklifts. Perfect to enhance the safety in your workplace and prevent costly damage to equipment and vehicles. Our racking protectors can be used in warehouses, factories, and loading docks.

Crafted from low density polyethylene, our racking guard protectors absorb impacts and scrapes from machinery which avoids costly damage to racks, assets and vehicles. Made in a bright safety yellow colour, the protectors enhance visibility and awareness of the racks.

Features

- Manufactured from LDPE (low density polyethylene).
- Easily attached with Velcro straps.
- Fits 100mm rack legs.
- Protects against impacts.
