

Racking Guard Protector - Fits 80mm

RGP-80

Description

Enforcer Racking Guard Protector Fits 80mm provides a barrier to protect your racks from impacts and scrapes from warehouse machinery. The protectors absorb impacts which protects your racks, stored products and machinery. Perfect for warehouses, loading docks and factories.

Crafted from low density polyethylene, our racking guard protectors absorb impacts and scrapes from machinery which avoids costly damage to racks, assets and vehicles. Made in a bright safety yellow colour, the protectors enhance visibility and awareness of the racks.

Features

- Manufactured from LDPE (low density polyethylene).
- Easily attached with Velcro straps.
- Fits 80mm rack legs.
- Protects against impacts.
