KERB RAMP RUBBER – BLACK 500MM

- Manufactured from heavy-duty solid rubber
- Can be used for a temporary or permanent solution
- Withstands from heavy cars, trucks, and forklifts
- Can be used individually or joined together to form a longer ramp
- Perfect size to carry by one person
- Two mounting holes for permanent use

Kerb ramp is environmentally friendly manufactured from recycled black rubber with a unique anti-slip design. Kerb ramps are designed to provide easy access to drive over roadside kerbs or steps, for vehicles, bicycles, trolleys, and lawn equipment. It can be used for temporary or permanent solutions, two mounting holes at the front of the ramp allow it to be permanently mounted. Easy to store or transport, you can just keep it in your van or truck for when it is needed, they can be used individually or join together to form a longer ramp, it is designed to be strong and durable. Suited to use for construction sites, distribution centers, parks, or all other areas where access is needed over changes in ground levels.
