

Kerb Ramp Rubber High-Vis Reflectors - 150mm High

RKR-150

Description

Enforcer Reflective Kerb Ramp Middle 150mm Yellow Reflector is used to provide safe access over kerbs or steps. It can be used by pedestrians, cyclists, and people moving machinery like trolleys and lawnmowers. It can also be used by heavier vehicles like forklifts, cars, trucks and caravans. Perfect for use around worksites, parks, carpark, hospitals and loading zones to create a smooth surface.

Crafted from strong recyclable rubber, the kerb ramp absorbs shock and has a durable anti-slip surface. It can be safely used in wet conditions by providing strong grip and traction. The anti-slip treads in safety yellow also draw attention and can be seen in lowlight. The ramp is tough enough to support pedestrian as well as vehicle traffic. It also features two cable channels to safely store cables if required.

Features

- Manufactured from tough recyclable rubber.
- Can be used for temporary or permanent solution
- Withstands from heavy cars, trucks, and forklifts.
- Equipped with triangular-shaped no slip treads that are highly visible even in dim lighted areas.
