

Kerb Ramp Rubber High-Vis Reflectors 200mm High

RKR-200

Description

The Enforcer Reflective Kerb Ramp is expertly constructed from heavy-duty, recyclable black rubber, ensuring exceptional durability and cost-efficiency. This kerb ramp is designed to withstand the extreme Australian weather, ensuring it won't chip or break, making it suitable for both equipment and vehicle passage.

This kerb ramp is light enough for one person to easily remove, transfer, and transport. Its superb visibility is enhanced by the highly reflective triangular etchings, providing extra safety. Additionally, the ramp features two channels to accommodate wires and cables underneath, promoting a tidy and safe environment.

Features

- Manufactured from heavy duty solid rubber.
- Can be used for temporary or permanent solution
- Withstands from heavy cars, trucks, and forklifts.
- Can be used individually or joint together to form a longer ramp.
- Two mounting holes and cable access.
