

Rolled Kerb Ramp For Driveway Edge - Angle Section

RKR-R-A

Description

Enforcer Rolled Kerb Ramp For Driveway Edge Angle Section complements our rolled kerb ramp and creates a smooth transition between your driveway and road. It is perfect for creating better access for low clearance cars, pedestrians and wheelchair users. The angled section is perfect for those needing a rolled kerb ramp to fit along a curved driveway as the angled sections can be lined up to create gradual curves that fit seamlessly with your driveway.

Crafted from strong recyclable rubber, the rolled kerb ramp absorbs shock and has a durable anti-slip surface. It can be safely used in wet conditions by providing strong grip and traction. The reflective strips improve visibility at night and ensure your driveway can be seen in lowlight. It has an inbuilt channel to allow for waterflow.

Features

- Manufactured from durable and thick rubber.
- Provides smooth transation.
- Anti-skid top surface with reflective strips.
- In-built channel to allow water flow.

Specifications
