

Kerb Ramp Rubber High-Vis Reflectors End - 100mm High

RKRE-100

Description

Enforcer Reflective Kerb Ramp End Cap 100mm Height is built to be super durable and highly visible to increase safety and awareness at the same time. The end cap is essential to prevent trip hazards and improve access. It keeps seamlessly with kerb ramps to complement the end of the ramp and provide a smooth transition. This prevents wheel damage and costly accidents. It can be used in parking lots, construction sites, warehouses and anywhere where improved accessibility is needed.

The kerb ramp end cap is designed to fit with kerb ramps to reduce the risk of accidents. The kerb ramp features a safety yellow triangle design to increase visibility and awareness of the ramp. The highly durable rubber construction can perform in high traffic areas, can withstand vehicle traffic, and harsh weather.

Features

- Made of recycled rubber.
- Anti-slip design that absorb shock.
- End cap for kerb ramp 100mm high.
- Easy to maintain and is portable.
