

Road Spikes Ahead Sign

Road-Spike-Sign

Description

Enforcers One Way Road Spikes Sign is an effective tool designed to improve road safety. It provides a clear directive to drivers that there is are road spikes coming up on their road. Perfect for councils, construction companies, universities and other businesses concerned with road safety in their community.

The sign is made with class 1 reflective vinyl, ensuring a high level of visibility even at nighttime. It reduces accidents by ensuring motorists are aware of what is coming. The sign has been designed to withstand Australian weather conditions and wont warp, split or rot.

Features

- Made of aluminium.
- Class 1 diamond reflective vinyl.
- High level of visibility even at night time.
- It effectively slows traffic by warning motorists of oncoming road spikes.
