

# Carpark High Storage Cabinet

## SC-H-W

### Description

Enforcers Carpark High Storage Cabinet provides an efficient use of space. This innovative cabinet incorporates a built-in locking system with included keys to ensure your tools and equipment are secured.

The cabinet features a professional matte white powder coated finish that not only looks great but resists weathering and corrosion. It features a two-door opening for easy access, allowing you to store and remove your equipment with ease. The integrated locking system provides a high level of security accessible only by the two keys provided.

### Features

- Made of Galvanised Steel.
- Finished in powder coated white.
- Two-door opening for easy access.
- The integrated locking system with two keys.
