

Cable Protector Three Channel Corner - 45 Degree

SH-CP3CC

Description

Enforcer Three Channel Cable Protector Corner is a handy tool that safely covers cables to ensure the safety of property, pedestrians and vehicles. The corner piece helps to direct cables along desired pathways. Cable channel protectors reduce trip and fall risks caused by loose cables. The three separate channels help to organise and store multiple cables.

Constructed from new and recycled rubber, it is strong enough for use indoors and outdoors. The safety yellow cover also helps to increase safety by drawing attention to the speed hump and ensuring visibility in low light conditions.

Features

- Cable channel protectors reduce trip and fall risks caused by loose cables.
- The three separate channels help to organise and store multiple cables.
- The durable rubber bottom ensures the corner cable protector is secured to the surface.
