

Cable Protector Five Channel Corner - 45 Degree

SH-CP5CC

Description

Enforcer Cable Protector Five Channel Corner allows you to safely organise and control the direction of cables and reduce the risk of accidents and damage. The interlocking corner piece fits perfectly with our five-channel speed hump cable protector. Perfect for organising cables around worksites, offices and other areas with pedestrian traffic to reduce trip and fall accidents and damage to cables and equipment.

Features

- The interlocking corner piece fits perfectly with our five-channel speed hump cable protector.
- Crafted from durable rubber and strong plastic, our corner piece is built to last.
- It features a patterned surface to increase traction when walked over.
