

Speed Hump Cable Protector 5 Channel

SH-CP5C

Description

Enforcer Speed Hump Cable Protector Five Channel is an innovative cable protection tool made from new and recycled rubber. It works by organising and safely storing cables in five channels, allowing pedestrians and vehicles to pass over the cables without risk of trips and accidents. Suitable for use in warehouses, worksites, offices or even residentially.

Constructed to be durable enough for use indoors and outdoors, these cable protectors can be lined up to suit your required length. They safely store your cables and wiring, reducing the risk of trips and accidents from vehicles and pedestrians crossing over cables.

Features

- Manufactured from new and recycled rubber.
- Designed to be strong and durable with low noises.
- Great for indoor or outdoor use.
- Easy placement and removable of cables/hose lines with open-top style.
