

Speed Hump Portable Roll Out SH-PRO

Description

For temporary traffic control, Enforcer Speed Hump Portable Roll Out is easy to deploy, lightweight and versatile. Perfect for warehouses, busy carparks, construction areas, and public spaces like hospitals and school zones.

Lightweight and durable plastic. It is designed to withstand use by heavy vehicles making it suitable for a variety of settings and vehicle loads. The design ensures it can conform to ground contours, ensuring a secure fit. The lightweight design ensures worker safety during install, removal and storage. The reflectors and safety yellow colourway add another layer of safety by enhancing awareness and visibility.

Features

- Manufactured from durable plastic.
- The roll out design ensures fast installation to slow down traffic when needed.
- Reflection tape in edges for greater visibility.
- Lightweight design.
- Can be stored in zipped bag after use.
