

Speed Breaker Plastic Hump

SH-Plastic

Description

Enforcers Speed Breaker Hump is made from nylon plastic in solid safety yellow and black colours. It is effective in slowing the speed of motorists to increase safety in areas shared by vehicles and pedestrians. Suitable for areas like schools, car parks, hospitals, retirement villages and other public spaces.

Features

- Manufactured from UV stabilised nylon plastic.
- Anti-slip embedded diamond surface pattern for extra safety.
- Light weight and easy to install.
- Strong and durable for indoor and outdoor use.
