

W5-10A - Speed Hump Warning Sign

SP-Hump-sign

Description

Enforcers Speed Hump Sign is an effective tool designed to improve road safety. It provides a warning to drivers of oncoming speed humps, allowing them to reduce their speed and ensure the smooth flow of traffic and the reduction of accidents. Perfect for councils, construction companies, universities and other businesses concerned with road safety in their community.

The Speed Hump Sign is made with class 1 diamond reflective vinyl, ensuring a high level of visibility even at nighttime. It effectively slows traffic by warning motorists of oncoming speed humps. It is backed by a 1.6mm aluminium backing. The sign has been designed to withstand Australian weather conditions and wont warp, split or rot.

Features

- Made of 1.6mm aluminium.
- Class 1 diamond reflective vinyl.
- High level of visibility even at night time.
- It effectively slows traffic by warning motorists of oncoming speed humps.
