RED/WHITE CHAIN 40M ROLL

- 40 Metre roll
- Suitable for internal or external use
- Easily attached to walls and posts for permanent applications

The Enforcer Group Red/White Plastic Chain 40m Roll is robust, yet lightweight. It is the epitome of versatile safety and asset protection. It weighs just 2.5kg and is 6mm diameter. It's a top choice for workplace safety in Australia.

It is crafted to excel at crowd control, traffic management, and safety. This product is key for creating a safe workplace. It is made of high-grade plastic. It withstands Australia's tough weather. This ensures that it lasts and performs well. The chain is bright red/white. This colour enhances visibility, which is crucial for worker safety in low-light conditions. It also adds to a safer environment.

This chain is great for ensuring a safe and organized setting. It's an essential tool for safety. It's used in busy places like airports and construction sites to keep order.
