

Sign Bracket with Hex Head Bolt to suit 60mm O/D Sign Pole

SP-TD1, SP-TD2

Description

For securing either one or two signs to a signpost, Enforcers TD1 & TD2 Sign Bracket with Hex Head Bolt to Suit 60mm O/D Pole ensures you have the correct bracket for your needs. They can be used by construction companies, councils and anyone looking to secure signage to poles or structures.

The TD1 bracket attaches one sign to your signpost, while the TD2 bracket secures two signs, one on each side of your signpost to ensure traffic from both directions can view the sign. Made for the Australian outdoors, our sign brackets perform in all weather conditions. They are built tough to ensure your signs are secure.
