

Tactile Indicators - Peel & Stick Hazard 300mm x 300mm

TI-PS-30X30-H

Description

Enforcer Peel and Stick Hazard Tactile Indicators are a simple and effective safety solution that requires no equipment and almost no time to install. Simply remove the adhesive backing and stick to your clean, smooth and dry surface and your tactile indicators are ready to be walked over immediately. Perfect as a marker for hazards, obstacles or to mark designated points in public spaces.

Features

- Manufactured from long-lasting UV-stable polymers.
- Peel-and-stick adhesive backing for quick and easy installation.
- Slip resistant design with P4 slip rating.
- AS1428.1-2009 standards compliant.
