

Tactile Indicators - 316 Stainless Steel Silver 300x300

TI-SSP-S-30x30

Description

Enforcer Tactile Indicators - 316 Stainless Steel Silver 300x300 is the top-notch approach for building accessible and secure pathways for people with vision impairments. With this tactile tile, tactiles are attached in concentric patterns to a solid plate as a single whole piece and are made of 316 stainless steel on the horizontal face and a smooth outer edge. This provides an affordable tactile paving solution that complies with Australian safety regulations. They are long-lasting, resilient, and easy to install.

Features

- Compliance to AS1428.1-2009.
- P5 Slip Resistance Rating.
- Stainless Steel 316 construction.
- Lightweight pre-moulded construction and beveled edges.
