

# PRODUCT SPECS

Product Code: TI-SSP-S-30x60

Size: 300x600mm

Slip Rating: P5/R12

Configuration: Hazard

Finish: 316 Stainless Steel

Fixing: Drill and Screw

## TACTILE INDICATORS - 316 STAINLESS STEEL SILVER 300MM x 600MM

- Manufactured from 316 Stainless Steel
- Australian Standards AS1428.1-2009 Compliance
- Beveled edges to reduce trip hazards
- Easy installation

Using Tactile Indicators - 316 Stainless Steel Silver 300x600 is the top-notch approach for building accessible and secure pathways for people with vision impairments. With this tactile tile, tactiles are attached in concentric patterns to a solid plate as a single whole piece and are made of 316 stainless steel on the horizontal face and a smooth outer edge.

These tactile indicators are composed of a high-quality, slip-resistant material that is designed to withstand inclement weather and foot activity, ensuring they maintain their non-slip quality and durability over time.

These indicators can be used in a variety of public settings, including offices, retail malls, hospitals, schools and train stations, as well as in private settings.
