Product Spec Sheet

Truck Wheel Stops

WS-Truck

Description

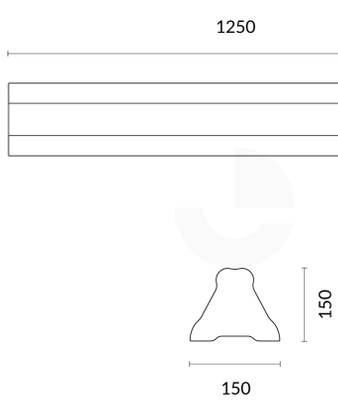

Enforcers Truck Wheel Stops comply to Australian standards AS/NZS 2890.1:2004. They are designed to be extra strong and durable to withstand use by heavy trucks in tough environments. Perfect for enhancing safety at petrol stations, rest stops and designated truck parking spaces.

Made from durable recycled plastic that has been heavy-duty moulded to be strong and robust. They feature Class 1 diamond grade reflective panels to provide the best visibility in low light, these panels are strategically positioned to avoid damage caused by tyre contact.

Features

- Heavy-duty recycled plastic construction.
- Designed for heavy truck parking applications.
- Class 1 diamond grade reflective panels for high visibility.
- Reflective panels positioned to minimise tyre contact.
- Suitable for petrol stations, rest stops, and truck parking areas.
